

I am writing in reference to the NAB's attempt to restrict XM satellite radio from providing instant traffice and weather. We all benefit from the variety and quality that is not available elsewhere. I pay for these servies and it shouldn't be up to the NAB to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that we demand and deserve.

Sincerely,

Brian Quinn
